Harter Hit Hard.

A Missouri Bank President Goes for Harter and Cleveland.

George Wilson is the president of the Lafayette county (Missouri) bank. M. D. Harper, the champion goldbug crank, in congress from the state of Ohio, sent him his last crank circular calling upon all bankers to be "up and doing," or the silver vandals would overrun the country. This is the way the Missouri bank president dressed him down:

Hon. M. D. Harter—A printed circular sent by you over the country asking for an expression of an opinion on the present law for the purchasing and coinage of the silver product, has been handed me too. Though doubting you want this answered I say to you, Thomas Jefferson said, the first principle of government was the rule of doing honest. I regard which the party found it for [illegible] and also [illegible]

The county in which I live has a large debt. When it was made all the gold and silver in the world could have been turned into American money at the desire of the owners. We pay that debt with wheat, corn, hogs, cattle and other products of the farm. Because gold and silver were then monetized, money was plenty, a large quantity of them could be had for a given quantity of farm produce. We paid 10 per cent on our county debt as it should. Interest. Wheat was about $1.50 per bushel. [illegible] the interest to 5 per cent and wheat is 50 cents per bushel and under. The real [illegible] of interest is higher now than then, though the nominal interest is lower. This is because money has become scarce by the raid on the constitution.

I was in this bank for ten years when it was like an appendage, and in six years time seven banks were raided and swindled and declare that the swindlers ought to be sent to prison. At the same time they say that good business policy under the present conditions forbids such severe action, especially as the stockholders of the elevator company are ready to make a compromise settlement. The Northern Pacific elevator company is now in the hands of a receiver. Among the New England banks swindled are nearly all the state institutions here, which were hit heavily, the banks at Portland Me., and various banks in the towns about Boston.

As an American business man, as a banker who has studied the financial problem for twenty years from a broader standpoint than personal greed, I think that the present law should stand until a return to the coinage of the constitution takes its place. I do not see that the constitution gives gold mine owners a monopoly of furnishing and holding the only thing that will pay a debt.

DENVER'S UNEMPLOYED.

About Six Hundred Carried Out of the City—Nobody Killed Arrata.

DENVER, Col., July 28.—The coroner's jury investigating the death of Dan Arrata, the Italian murderer lynched Wednesday night, returned a verdict of death by being hanged by parties unknown to the jury. The witnesses examined were unable to identify any of the leaders of the mob. Ch. J. F. Brandt was arrested last night on one of the leaders. Poncho Jose Willia was placed in jail to-day on the same charge. Both assert their innocence.

During the day about six hundred unemployed were taken out of the city by railroad for harvesting. Before leaving they entered many neighboring bakeries and stores and asked for food. No threats were made, but they got nearly all they wanted. Passing milk wagons contributed to the supply and no serious trouble occurred. To-night everything is quiet.

MANAGUA TAKEN.

In the Hands of the Nicaraguan Revolutionists—Great Loss of Life.

PANAMA, July 28.—Confirmation has been received of the capture of Managua, Nicaragua, by the revolutionists. There was hard fighting and great loss of life on both sides. Six hundred Honduran troops, under command of Policarpo Bonilla, fought with the troops from Leon. During the fight a detachment from one of the government's garrisons in Managua deserted and joined the Leon troops under Gen. Zelaya. Gen. Sevavala, with the government troops, has gone to Granada. A strong defense will probably be made in that city. Communication has been cut off from all points in Nicaragua except Rivas and Granada. The situation is considered very serious.

Nugent's Address.

GREENVILLE, Tex., July 29.—The News' report of Judge Nugent's speech at San Marcos is creditable alike to The News' independence as well as its judgment of things readable. Political opponents and blind prejudice, inspired by party followers who sometimes do think, will find much in this speech to direct their thoughts logically. Such an address as Judge Nugent's is a tower of strength to thinking minds and leads in the advanced thought which just now seems to be in the atmosphere.

Was a Man Cremated?

SHERMAN, Tex., July 28.—At the time W. M. Scott's hay barn burned at the corner of Lamar and Montgomery streets there was a rumor that a man had burned up in it. There was very little attention paid to the report. To-day when engaged in rebuilding the barn workmen found under the ashes several pieces of what has the appearance of bescindered bone. It was all found together and nothing resembling it could be found anywhere else in the ashes. What makes it still seem more likely that the find is really the cremated remains of a man is the statement of Mr. J. F. Smith, who lives at 231 East Jones street, not a block away. Mr. Smith says:

"The first I knew of anything wrong was what appeared to me to be a half smothered cry for help. It appeared to me to be on the east side of the hay barn, behind [illegible] the barn with his back [illegible] plainly from the sidewalk [illegible] was lighted and did [illegible] come here that way. The fire was [illegible] when I heard them and [illegible] Thrasher heard them and [illegible] did Mr. Slayden who [illegible] working with me. I have been fully convinced all the [illegible] that when the ashes were cleared away [illegible] would be found. [illegible] Mr. Smith [illegible] coupled with the fact that [illegible] edible query, 'If a man was [illegible] burned, who was he?'

DON'T FORGET IT.

READ the letter of Banker Wilson on the first page.

LAST Thursday the English House of Commons became envolved in a general fight and knockdown over the Irish home rule bill. The bill passed and thus Gladstone is victor.

A FEW men hold the financial reins over this oppressed people and are determined to ride them to death. No wonder they are just now doing the bucking act.

IT seems like we will have to pardon Hon. J. W. Bailey for his clerk hire mistake, owing to the fearless manner in which he speaks out in meeting. The present congress will prove the sincerity of our representative.

LAST Tuesday pork took a tumble from $19 per barrel to $11 per barrel. Thus in the fall of one article, during one day, millions of dollars was transferred from the pockets of one class to those of another.

Two negro preachers, one Christian and the other a Baptist, held a joint discussion at Lodi, Texas, last Tuesday. The followers of each got into a general row. One negro was shot with a shot-gun.

THE great silver convention convened in Chicago last Tuesday, which is the largest gathering of its kind ever held. Allen W. Thurman of Ohio, son of the "Old Roman" was elected chairman. The meeting is composed of delegates from all political parties. The proceedings will be watched with interest.

MAYOR HARRISON of Chicago issued a proclamation which allowed the waifs of Chicago a free pass into the great world's fair. The management, however, refused admittance to the poor children. Buffalo Bill heard of the rejectment and at once invited the little fellows into his wild west show. Fifteen thousand of them attended in a body.

CONGRESSMAN J. W. BAILEY, in an interview in to-day's Dallas News says:

"TO TURN HIS BACK ON THE PLATFORM NOW AND GO OVER TO THE SINGLE GOLD STANDARD SIDE WOULD BE RANK TREASON ON THE PART OF THE PRESIDENT."

Mr. Bailey also thought that there will probably be a new allignment of parties in the near future.

THE democratic negroes are to have a democratic convention in Washington City on Aug. 24-26. Cleveland bids them welcome and God speed. Cleveland is a great friend of the colored brethren—provided they are democrats.

IF the Hon. Mr. Bailey of Texas does not have democratic opposition next year the country at large will take it as an evidence that his district is wanting in good congressional timber.—Ft Worth Mail (Dem).

Bailey is getting all right. Don't be too hard on him.

"OUR GOVERNMENT," says George Clark, "has made every effort to preserve silver value, but to no avail." When it was, for instance, demonetized in 1873, and when every republican administration and ditto democratic, since then has discriminated against the white metal, culminating in the treachery of Carlisle when he paid out gold for the express purpose of giving silver a black eye.—Texas Farmer.

IF Carlie Thompson wants to make a really interesting paper of his DEMOCRAT he should clip liberally from the Gazette. He made a good start last week. —McKinney Gazette.

Well, yes, we have been rather a long time teaching the Gazette into our way of thinking, owing to the dulness of its "muscular" editor, but we are glad to state that we have succeeded at last and we will condescend to give its "weakly" squibs position in our columns until he gets "off his base" again.

THE dignified and chronic loafer can now talk of "overproduction." Wheat 50 cents per bushel; corn 25 cents, oats 18 cents and cotton next to nothing, is the way the market now stands. Eight thousand workingmen are starving in Denver, Col.! In New York City alone 70,000 people are out of employment! Other places are suffering. Thus one can readily see the inconsistency of the overproduction theory. Feed and clothe the needy and there will be no surplus. Give us more money, stop the robbery and "confidence" will be restored.

JUDGE A. B. NORTON, of Dallas, an old republican, comes out in favor of free coinage of silver. From his interview we quote:

"Yes, I am in favor of free coinage of silver and I am not in favor of increasing the amount of silver in the dollar. The convulsive results produced by the dictation of Wall street are enough to arouse the American citizen to anger. Just think of it! Honest workingmen, forced to leave Colorado in search of bread, are stopped at the entrance to Kansas City by armed officials? The Judge grew wrathy. My God, has it come to this, that free-born American citizens of industrious records and charged with no violation of law are prohibited from going to and fro in search of employment? It is an outrage far worse than the act of stopping immigrants at Castle Garden."

The Judge further predicts a break up of old parties.

THE MUSCULAR EDITOR AND THE "TARUF."

The democratic party believes in tariff reform and the republicans believe in reforming the tariff. Which is which? Neither will be accomplished. —McKinney Democrat.

Ah! there Carlie! Why did you not speak out and save all this anxiety? If you had loosed that silver tongue of yours the question of tariff reform would have been dropped long ago.—McKinney Gazette.

Don't fret about "tariff reform" being dropped. Your party has dropped it successfully without any hesitancy. With a few more clerk hire bills you will have to increase the tariff. See!

HON. J. W. BAILEY,

His Own Organs Refuse to Defend Him.

Our Congressman's Inconsistency.—His Farmersville Letter Reproduced.

The McKinney "DEMOCRAT" is hereby informed that the Van Alstyne News is not laboring under the necessity of rehashing Hon. J. W. Bailey's explanation of the clerk hire bill at Copeville. Mr. Bailey is amply able to make that explanation and will do so at all his appointments in the district.—Van Alstyne News.

When Mr. Bailey canvassed the district and made his "calamity howling" speeches previous to the last election the "News" worshiped the oratorical, slick tongued congressman in a very devoted manner. Now, the "News" refuses to do "justice" to Mr. Bailey by publishing his "explanation" of the clerk hire bill. The "News" will please pardon us when we declare that we suspect that it, like the balance of the "Democrat" papers of the district, is ashamed of the "explanation." Just now is a very proper time to reproduce the Hon. Mr. Bailey's letter, which was written to a Farmersville friend. It reads as follows:

"You can hardly imagine (certainly I had but little idea of it before coming here) how difficult it is to stand for what we know is right. The 'influences' here are all against a man who dares to defy the customs and to insist upon obeying the constitution. HALF OF THE MEN HERE TALK ONE WAY AT HOME AND ANOTHER WAY HERE, but when I find that I cannot speak and act on the floor of this house exactly as I would speak and act in the grove at Farmersville, I WILL RESIGN. If the people could see how their representatives conduct their business in congress there would be infinitely more complaint than there is. MANY OF THESE WOULD-BE STATESMEN SEEM TO THINK THAT IN ORDER TO SHOW THAT THEY ARE BROAD MINDED, THEY MUST EFFECT TO DESPISE THE OPINIONS OF THEIR PEOPLE. I am glad to say that none of our Texas representatives are subject to this criticism for they are faithful in all things. I confess to you that I never feared for the future of my country as I do to day, and as sure as we live we must go back to old democratic principles or else we will go forward to absolute ruin."

Mr. Bailey is one of the men who talked one way in congress and another way at home. Just at the time when the people were going FORWARD TO ABSOLUTE RUIN, when thousands of our workmen were being thrown out of employment and begging for bread in our cities and even in our rural districts, while wheat was selling at 60 cents per bushel, he deliberately voted away about $250,000 of the peoples money to furnish clerks to a host of officials who were already drawing $5,000 per year with mileage and other expenses furnished on the side. Shame! upon such wholesale extravagance!

Not satisfied with this he returns to his debt burden constituency and informs them that he cannot live on $5,000 per year! Why don't he resign as he promised? No, he prefers to "DESPISE THE OPINION OF HIS PEOPLE," who he has so successfully hoodooed.

Mr. Bailey advocates many things which we admire, but in the light of the past, CAN WE DEPEND ON HIM?

We see only one way for him to redeem himself. Let him join the populists and receive moral training in politics.

Smoke the Nickel Store cigars.

IS MR. BAILEY A POPULIST?

The following was clipped from a recent communication dated at Montague to the Bowie Headlight:

"Hon. J. W. Bailey spoke here Monday evening. His theme was the financial question. And just here let me say that his was the first democratic speech I ever heard in which the democratic party was not named. He made a good speech, but I don't think it suited the democrats very well. It was a full grown "calamity howl," with the exception of one or two remarks, a stranger would have thought him to be a populist. He preached the doctrine in its simplicity and purity."

Hastily yours.
CITIZEN.

AN HONEST AND BRAVE DECLARATION.

We have a d ic administration, president senate and house of representatives. If the first act of that administration be demonetization of silver, then good-bye democracy; it has lived only too long—McKinney Enquirer.

You are right Mr. Bingham. Any party that deliberately plunders the peoples' interest, whether democratic, republican or populists, deserves swift punishment. Parties are made up of individuals and like the latter grow old and infirm and must die sooner or later. Often they become corrupt before maturity and commit crimes and deserve death. Only by prejudice and ignorance can they survive.

THE M'KINNEY GAZETTE SOUNDS THE ALARM. WE ARE CALAMITY HOWLERS.

The pocket nerve is said to be the most sensitive of the entire system. This fact is being proven by the excited feeling that is beginning to manifest itself over the effort to demonetize silver. He who is working for that result had better look a little out and feel the pulse of his neighbor before he strikes the blow that breaks the silver cord and severs in hostile twain the debtor and creditor class. The ringing of the rattlesnake's bells is no more a potent warning of danger than the determined expressions of tens of thousands of our hardworking fellow citizens. The act we believe cannot be did, or if by stealth, or power financial, the lion's paw, oppression's press, the days of Paris will be again enacted and the heads of the money kings will roll in the dust. Corporate power and the commune in the crush will each other neutralize, and the reign of mammon for a time will give way to desolation and thus the scourge may raze a nation as it has often done before. Read the resolutions of the Collin county alliance here appended, if you would know the sentiments of our people.—McKinney Gazette.

THE BI-METALLIC CONVENTION.

The reports from the great silver convention shows that the populists are well represented there. Free silver democracy and populists seem to be working harmoniously together. The following is clipped from the report:

Senator Allen of Nebraska provoked much enthusiasm in a brief but stirring speech: "The present panic was first created by the bankers of the country for their own selfish purposes, but it has become farther reaching than they expected, and the bankers themselves have become involved and have appealed to the president and to congress for aid. The time has come for action, not for talk. We populists told you last fall of the impending danger, but you did not believe us. Now you are obliged to stand out from your own parties and stand up for the American home as against the British home. I do not come here to talk politics. I want to say that as far as our party is represented in the senate it will not be found wanting. [Applause.] We may not understand parliamentary maneuvering as well as some, but I tell you we will be in sight of the box all the time. [Laughter.] Our party has been pledged all the time for the free coinage of silver at a ratio of 16 to 1." [Cheers.]

Again we clip the following:

"Cyclone" Davis, of Texas, now got the floor long enough to read a dispatch in an evening paper stating that Secretary Carlisle had been to-day in consultation with New York bankers of Wall street to see what they desired done to meet the present crisis. Davis offered a resolution asking the secretary of the treasury also to receive a delegation from "the people" to hear what they thought should be done in the present crisis.

The resolution was adopted by a unanimous vote intermingled with execrations of Secretary Carlilse for his betrayal of silver.

E. C. FORBES, Sec., Allen.

The evening session showed twenty-two precincts represented. Visitors were allowed to participate in the discussion of current political topics.

Several interesting speeches were made by Judge J. W. Gray, J. T. Branch, W. T. Hale, E. F. England and others.

After some routine work of the committee a motion to resolve the entire executive committee into a finance committee was unanimously carried.

W. T. Hale was elected treasurer, to receive and receipt for all campaign funds. Each member of the committee was instructed to go to work at once and raise all possible funds to be used legitimately in the next battle of the ballots.

The meeting was most harmonious and enthusiastic and was demonstrative of the fact that the "kickers" are yet on deck and will be heard from as usual in the next campaign. As long as justice shrieks in pain these patriots will rally to the rescue.

CROSSWISE.

Tom Perkins, the fat boy, of the Wylie Rustler has certainly been mixing drinks, or else while clipping his editorials he has failed to study his articles. The following we clip from the Rustler:

"The tariff question is the paramount one in politics at this time, and should not be subordinated to the silver nor any other question."

Now, Tom, after blowing off your bazoo in the above manner, why did you place the following editorial in the same issue?

"The people of the United States are eagerly waiting for the result of the special session of congress. The Rustler believes we should have more money and less confidence to carry on the business of this country.

Changing Diseases.

In that delightful book, "Ridder Grange," the husband of Pomona gives as his reason for not removing from a malarial neighborhood, that it don't do for a man at his time of life to go about changing his diseases and adding, that there are diseases incident to almost every locality, and he likes a disease he is used to.

Now, in case of malarial diseases, aside from the unwillingness of patients to "change diseases," it is generally not convenient to change their residences. If this were done in every case, some of our most thriving communities would be depopulated.

Nothing is left to do therefore but to fortify oneself against malarial influences. For this purpose Drs. Starkey & Palen's Compound Oxygen has proved itself in the past 23 years the most efficient thing in the world.

Any person desiring to change diseases for health shonld write to us a plain statement of their case, when, if possible, the way will be point, ed out. The consultation is without charge. Address Drs. Starkey & Palen, 1529 Arch Street Philadelphia, San Francisco or New York, and Toronto, Ont.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescriced local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

PROBABLE KILLING.

A Farmer Shot Twice in the Abdomen—No Arrests.

McKINNEY, Tex., July 30.—Reports arrived here to-day of a probable killing near Celina, in the extreme north-western portion of this county. A few days ago Lige Glen was on his way home from Pilot Point with a plow-point, which he had sharpened at that place. When in front of Mr. Reed's place a dog ran out and tried to bite Glen's horse. Glen threw the plow-point and killed the dog. Reed came out, and some hot words were passed. Last Friday night Reed went to Glen's house. A pistol fight ensued. Reed was shot twice through the bowels. The latest news to-day is to the effect that Reed cannot live, Glen was not hurt, Glen took Reed into the house and sent for a physician. Glen has not been jailed.

A LONELY GRAVE.

As I was taking an idle walk up the H. & T. C. railroad from McKinney I observed a lone grave a little distance from the track. It had a pen built of old cross ties around it and at the head a board was set up with the simple words, "Bill Thomson, age 21. Died Sept 12. 1891.

Away out from the hum of the busy town,
Only a few feet from the railroad track,
Where rumbling cars go daily thundering down,
Bearing loved ones off; bringing others back:
There, in loneliness, with wild weeds o'ergrown,
Is a humble mound—carelessly done,
Fenced with a cross-tie pen—marked by no stone—
Only a board is inscribed, "Bill Thomson, age 21.
In this dreary place, where the night wind sweeps
By with a moan that is hoarse and chilly;
All unwept, unnoticed and unknown, sleeps,
What was lately some fond mother's little Willie.
Some mother once held, in tenderest embrace,
A little, bright, fair-haired, innocent boy
And kissed with a mother's kiss the sunny face
Of her little son—her dearest hope and joy.
But now, how neglected and cast away!
No mother here, to weep by this lost grave!
The bright sun only, watches day by day,
The rank weeds blossom and the wild grass wave.
At dusky eve, when the cold stars come slowly
Out, to hold watch through all the weary night,
The lone whip-poor-will sings sadly lonely,
The only dirge to this solitary sight.
Thus unnoticed, from the ranks of the living,
We drop into oblivion, one by one,
And the busy, heedless world, without giving
A passing thought—like the cars—goes bustling on.

The lectures at Illinois school house, by Prof. Straiho, was attended by a good audience each night, notwithsanding there was a protracted meeting but a short distance off. Both lectures were well received by all, regardless of political faiths. A unmber of the democrats who attended were heard to say, "well its a sensible and genuine doctrine, if it can be carried out," while others said, "that kind of reform in that shape will do." Populists and alliance men, in his arguments against the sub-treaonry plan in defense of his proposed national money system said, that they couldn't object to the system as it strikes at the very evils which was intended by the sub-treasury plan, only in a different way. The professor promised to return again, later on, and deliver a lecture when he felt better and bring his winchester with him.
